

## GNAA announces the passing of Jerome

CANDIDATE FOR IMMEDIATE PRESS RELEASE

A sombering atmosphere filled the hall as hundreds of gay niggers, dressed in black suits, await the judgement of Jerome's homo-electronic fate. The paragon of gay and niggas alike, he was reported killed in action by Discord's administrators and engineers, who sought to undermine GNAA monopoly by attacking our mascot directly.

"He was, in the end, a true gay nigga. He will be sorely missed." Said GNAA member Kobe Bryant.

"The killing of Jerome is an unjustified overt act of violence against gay niggers and broader gayniggerdom. We will not allow such activities against our association. We will continue and strive to use our gay nigger abilities, and to our fullest extent, all of our abilities, to rebuild Jerome, no matter the cost." Claimed an anonymous GNAA spokesperson.

A ravaged gay nigger cries, butt-booty naked whilst masturbating one final time to a portrait of Jerome. He finished in 5 seconds.

Discord Inc. is a hostile corporation hellbent on reducing gay nigger rights to nothing no matter the cost. Their fear of gay niggers gaining any semblance of power or monopoly is palpable and felt throughout GNAA. We will never stop saving Jerome, and our bots.
